Data Flow Diagram

Create a Data Flow Diagram (DFD) to show how data moves through your system - between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	User – Sends weather requests and receives weather information and recommendations.
Rectangle with numbered header	Process	1.0 User Authentication, 2.0 Weather Data Retrieval, 3.0 AI Weather Analysis, 4.0 Weather Recommendation – Processes and transforms user/weather data.
Rectangle (solid fill, no number)	Data Store	User Database, Weather Data, Favorite Locations – Stores user, weather, and saved location data.
Labeled arrow	Data Flow	Login Data, Weather Request, Weather Information, AI Analysis, Weather Recommendation – Shows the movement of data between users, processes, and data stores.

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.
